

## 4MS SECOND TERM TEST

My school days were among the most beautiful days of my life. I still remember my first day at primary school very clearly. My school life remains one of the happiest parts of my memory.

I can still remember how kindly my school treated me. The care I received from my teachers and the friendship I shared with my classmates will always stay in my heart. That is why I always consider my primary school memories as a precious treasure in my life.

The friends who are close to me today are friends I met at school. The teachers of my childhood are still like guardians who guided and protected me. This is how my school life helped me grow and become a better person.

I believe that without the valuable memories and experiences of my school life, I would have lost many important moments. I would not have gained true friendship, useful experiences, or joyful memories. Those days taught me to respect time and to understand the real meaning of life.

### A) READING COMPREHENSION (7 PTS)
