The First English Exam

Level :4MS

Timing : 1 :30 m

Text:

Hello , Salima !

Thank you for asking me about my future job.Well ,when I was a child I dreamt of being a photographer because I used to like taking photos of friends and editing them.Then every thing has changed since I visited a hospital for cancer's patients at Oncology Hospital in my city.From that point ,I decided to become a doctor to help people and do something good for my country .

As for now, I am focusing my attention on finishing my studies at secondary school. Soon I will take the first important exam of my life - the baccalaureat exam. I won't stop working hard until I pass.. As you know , I'm good at English ,Maths, biology and physics . So ,If I get it with distinction , I'll study at the Medical University and my dreams may come true . I will seek more information about that from professors and career counselors at my school who are very supportive and helpful .

It is very hard to choose a career before you complete high school, but always keep in mind that it is never too late to change your path and no one says you have to decide now. Everyone would like to be good at what they choose.

Best regards

Sarah

MY DREAM JOB

What do you dream of? You may say it's too private but I'd like to tell you about my dream. My name is Sarah. I am 16. And I live in a small town. I live with my mother. So we don't have enough money to trav And my mum worries about me so much that it's impossible to imagine us apart. You think I complain but I don't. I like to know that there is somebody who cares for me every minute. And I can dream. My dream is to go somewhere abroad where people speak English. You know I am pretty good at English. I can communicate in English. I have some friends from abroad and we can talk on the Internet. They tell me about their countries, customs and traditions. I hope my future profession will be connected with travelling, something like an interpreter or stewardess. And I will see all those wonderful things I am told about. That's why I do my best to study English. It's an international language and every modern educated man must know it. Have you ever watched the documentary "Secret"? The main idea of this film is that people's thoughts are material. If you really want something it will come true. That's why every night before going to bed I close my eyes and dream of visiting new places and meeting new people.

Bill and Simone's Holiday

I still remember that disastrous sailing holiday…..
Bill and I left Miami one summer weekend on a sailing holiday in our boat "Siboney". We wanted to sail round the Caribbean Sea for a couple of weeks.

During our holiday, we saw a large group of whales. We were very excited. Unfortunately, while we were watching them, the whales began to hit the side of our boat. Suddenly, water started flooding in and we realized that we were in trouble. We quickly jumped into the lifeboat while the boat was sinking. Soon, it disappeared under the sea.

Fortunately, we had enough food and water for twenty days and a fishing line which helped us to survive. For the next fifty days, we caught about ten fish a day and ate them raw. We also drank only rain water. We saw many boats but although we waved and shouted while they were passing, nobody saw us. Then, as we were beginning to lose hope, a fishing boat rescued us.
