

**Text:**

Ibn Sina was born in the year 980 near Bukhara in Iran. He is well-known by the name "Avicenna". He studied medicine and cured the Sultan of Bukhara of an illness when many doctors could not. The Sultan allowed Ibn Sina to come to his private library for reading books of medicine. He invented "The Science of Anatomy" and wrote the book of "Canon of Medicine" and other books. Finally, he returned to Hamadan and died in 1037.
