THE SECOND ENGLISH TEST

The school life is the best life one may live. It is the golden period of learning and it truly impacts students' personalities and lives.

I clearly remember my first day at primary school . I can still feel how warmly I was welcomed .It was a nice day with hope, happiness and a lot of fun.I pretended to be a good kid, sitting on my seat carefully and listening to the teacher ; a kind beautiful woman , talking softly to us.

As I started middle school ,I didn't even remember how I was feeling , probably nervous, worried, stressed out..... I grew up in different ways because I went through many good and bad experiences .I got into trouble several times as I didn't make the smartest decisions.

My high school years were a bit defferent . The vision towards the future was clearer. I started working hard to achieve my goals. Thanks to that, I am happy with the career and the life I have today.
