FINAL EXAM IN ENGLISH

My only little girl Jana,

Don't be frightened and sad because I am going to pass away. Learn, my child, to look at life as a serious matter. Life is hard, but don't let it defeat you. Decide to fight. Have courage and clear goals–and you will win over life. Go through the world with open eyes, and listen not only to your own pains and interests, but also to the pains and interests of others. If you do that, you will succeed in contributing to the common goals of human society.

Examine, think, criticise, yes, mainly criticise yourself and don't be ashamed to admit a truth you have come to realise, even if you proclaimed the opposite a little while ago;. Just don't go on a road which is wrong and dishonest.

Another value is work. Learn to love work! But even if you have to leave school one day and work, don't stop learning and studying. Read much, and study languages.

Just one more thing, choose your friends carefully. One is also very much determined by the people with whom one associates. Therefore, choose very carefully and listen to the opinions of others about your friends. Jana, please take good care of your grandpa and grandma. Visit them often and let them tell you about your mother's youth, so that you can preserve it in your mind for your children. I kiss your hair, eyes and mouth. I shall always be with you. Your loving mum.

Text:

Qualities of a good citizen

A good citizen is the one who is a good person. He is the one who shows self-respect, social justice and a genuine love for his country. If a person gets correct values and principles at home, he will be a good citizen. If a child doesn't receive a good education from his parents, he won't show any good qualities when adult. Honesty, integrity, self-respect and courage are the qualities that can only be nurtured at home and thus forming the bases of good citizenship. Another thing which is necessary is good health. If a man is healthy, he can do his duty and can afford to be brave.

A good citizen must put the interest of his country before his own personal interest, and he should not do anything which may prove harmful to the interest of his country. In addition, he must do his share of the work, love his job and share due responsibilities. A good citizen puts his country before self.

Added to all these is the sense of pride a person has in his cultural traditions, the feeling of identification he has with his background. Every country needs its citizens to be free and strong.

Childhood Memories

All of us have memories, both good and bad. They are a vital component of our bodies. They shape our personality since all our knowledge and past experiences are stored there. We have memories from long ago and also from recent times. Furthermore, some memories help us get by tough days and make us cheerful on good days. Memories are irreplaceable and they are very dear to us. However, childhood memories are the dearest to anyone. They are a reason for our smiles during adult life.

Childhood memories are very important in our lives. They make us remember the best times of our lives. They shape our thinking and future. When one has good childhood memories, they grow up to be happy individuals. However, if one has bad childhood memories, they terribly affect their adult life.

Childhood memories keep the inner child alive. No matter how old we get, there is always a child within each one of us. This child comes out at different times. For example, some may act like a child on seeing swings; the other may get excited like a child when they see ice cream. All this happens because our childhood memories remind us of the times associated with the things we get excited about. Therefore, childhood memories play a great role in our lives.

Hi,

I went to Rome last August with my friend Peter. We flew to Rome with the British Airways.We stayed for a week in a small hotel near the Colosseum. The hotel was nice and quite cheap.

During the day we walked around the city. We saw all the famous places like the Colosseum, The Pantheon, and we threw a coin in the Trevi Fountain. We also had so much fun taking pictures and buying presents for our families.

Our favourit restaurant was the Pizza Navona. Eating the Italian Pizza for the first time was an unforgettable experience. I was so satisified with the quality of food and service **there.**

Rome is a beautiful city to visit **where** nature connects with History to form a small paradise for people who want to enjoy their summer holidays.

Best

Text : Travelling

Millions people all over the world like travelling. They travel to see other countries and continents, modern cities and the ruins of ancient towns, they travel to enjoy picturesque places or to learn about other cultures. It's always interesting to discover new things and different ways of life, to meet different people, to try different food, to listen to different music.

People who live in the country side often like to go to a big city in order to visit museums and art galleries, things they don't have at their hometown. They like to buy in elegant shops and to dine at exotic restaurants. People from the city often like a quiet holiday by the sea or in the mountains where they can sunbath or walk. Many tourists love taking photographs of everything that interest them - the sights of a city, views of mountains, lakes, valleys, forests, different kinds of trees, flowers and plants, animals and birds.

People travel by train, by plane, by ship or boat and by car. All means of travel have their advantages and disadvantages. And people choose one according to their plans and preferences. The fastest way of travelling - is travelling by plane, but the most comfortable is travelling by ship and the cheapest is travelling on foot although it is a slower way.

If we like travelling, we see and learn a lot of things that we can never see or learn at home, though we may read about them in books and newspapers and see pictures of them on TV. The best way to study geography is to travel and the best way to get to know and understand the people is to meet them in their own homes.

I knew that the only way I could get rid of poverty, was through education. So I asked 17 of my friends to invest in my vision because I learnt to be self confident and still believed in my idea, and soon « ALIBABA » became the largest e-commerce store in the world.

Today ,I am the richest man in China and I have a net worth of $33 billion .My story could teach you that it is never too late to believe in yourself and to never give up or lose hope , all you need to be perseverant and to achieve your dreams.
